SUMMARY

Software Engineering student with experience in application development, data management, and documentation. Detail-oriented, analytical, and adaptable with strong organizational and problem-solving skills.

EDUCATION

IDN Polytechnic

Jul 2025 - Present

Bachelor of Applied Software Engineering Technology

GPA : 4.00/4.00

PROJECTS EXPERIENCE

Mino Habit Tracking Mobile Application

Jun 2026

Flutter • Firebase • SQLite

- Transformed UI/UX designs into a responsive Flutter application with a consistent and intuitive user experience.
- Developed habit tracking, reward, and focus timer features to help users build positive daily habits.
- Integrated Firebase services to manage user authentication and application data.

Qurban Web Management System

May 2026

Next.js • Tailwind CSS

- Developed a responsive Qurban management web application using Next.js and Tailwind CSS.
- Built reusable UI components and responsive layouts for an intuitive user experience.
- Designed interfaces to support donor registration and Qurban distribution management.

Ticketing Management System Mobile Application

Mar 2026

Flutter • Laravel • PHP • MySQL

- Developed a full-stack ticket management mobile application using Flutter, Laravel, PHP, and MySQL to streamline ticket creation and tracking.
- Built responsive mobile interfaces, backend APIs, and database integration to support seamless data management.
- Implemented user authentication, CRUD operations, and role-based access to ensure secure and efficient ticket management.

Face Attendance System

Feb 2026

Python • Flask • OpenCV • face_recognition

- Developed a facial recognition attendance system using Python, Flask, OpenCV, and face_recognition.
- Implemented real-time face detection and user verification.
- Designed a backend to manage attendance records and user data.

Whiskr – Animal Photo Sharing Web

Dec 2025

Laravel • Livewire • MySQL

- Built a photo-sharing platform where users can create, view, update, and delete animal photo posts.
- Implemented secure authentication, role-based authorization, and image upload features.
- Designed a relational database and applied MVC architecture to support scalable and maintainable application development.

SKILLS

- **Technical Skills:** PHP, JavaScript, Dart, Python, HTML5, CSS3, SQL, Flutter, Laravel, Next.js, Livewire, Flask, Tailwind CSS, Bootstrap
- **Office & Administrative:** Microsoft Excel (Pivot Tables, VLOOKUP/XLOOKUP, IF Functions, Data Entry, Sorting & Filtering), Microsoft Word, Microsoft PowerPoint, Google Sheets, Google Docs, File & Record Management, Documentation, Administrative Support
- **Tools & Platforms:** Git, GitHub, VS Code, Postman, Figma, XAMPP, GitHub Copilot
- **Soft Skills:** Active Listening & Communication, Time Management, Cross-Functional Teamwork, Attention to Detail, Analytical Problem-Solving, Fast Learner, Adaptability, Customer Service & Support

CERTIFICATIONS & TRAINING

- **Coding Camp 2026 Graduate** – Technical Training & Financial Literacy
- **Python with AI** – DQLab
- **Data Science with Python** – DQLab
- **JavaScript Essentials 1** – Cisco Networking Academy
- **JavaScript Essentials 2** – Cisco Networking Academy
- **HTML, CSS & JavaScript Web Development** – Skillpedia
- **DevFest Bogor 2025 Participant** – GDG Bogor
- **TOEFL Prediction Test** – Score: 657

LANGUAGES

- **Indonesian** — Native
- **English** — Professional Working Proficiency
